

CUSTOM OFFICE REFRESHMENT SERVICES

*Reward Your Talented Team
While Increasing Productivity*

Introducing...

SCORS

Regardless of the size of your staff, if your team needs office refreshment with a great selection of healthy menu items, we can provide your firm with Superior Custom Office Refreshment Services (SCORS) that keep your valued people feeling appreciated, happy, nourished, engaged and, yes... productive!

The Break-Room: Where Corporate Culture Meets Casual Convenience.

We all want our team members and associates to feel valued as impact players, and to reward them for “making a difference,” as well as making good things happen. SCORS is a great way to promote your company’s culture, values, mission and vision in a relaxed, safe and convenient setting that allows for growth and learning. It’s a clean, communal environment where everyone feels valued by the company as they “break bread” and share ideas.

Flexible & Customized.

Flexibility, as it relates to nourishment and re-fueling, will afford your team the freedom of being able to complete an assignment, and then take a late lunch, or finish the day with a snack, while reflecting on the day’s progress with co-workers. When you ask Superior to create a custom office refreshment area, you will be taking the step towards creating a dynamic venue for high-quality work, making refreshment fun for your team, and showing them your gratitude and their value, not just as a worker, but as a “whole person.”

SCORS Process:

ON-SITE MEETING: We will come to your workspace to present you with options to begin the design process.

DESIGN MOCK-UP: We will provide you with full-color images of your designed space to review.

REVIEW AND APPROVE: We will work closely with you to provide your team exactly the right space.

INSTALLATION: We are available to install 24/7, at your convenience, with minimal work disruption.

What Are Superior's Clients Saying About Our Customized Refreshment Services?

"The bulk of our office of 300 colleagues used to splinter off individually around lunchtime, but since we brought in Superior to build us a beautiful market area, people are staying to connect with each other about their different perspectives on various client projects, as well as their lives, in general. It has been a "game-changer!"

- Stella G., Senior HR Manager
Stamford, CT

"We have mostly quick-service restaurant options available near our offices, so when we asked Superior to provide lots of healthy options in the solution they customized for us, we noticed that a lot of people would stay at the office. They seemed to be happier, while getting more done at work, too."

- Brian S., Director of Accounting
Morristown, NJ

"The big idea that won us our newest advertising account happened in an impromptu brainstorming session when one of our junior copywriters offered us an espresso at about 6pm in the break-room. He turned around to us and asked 'what if the tagline were a question?' It just worked!"

- Rochelle M., Assoc. Creative Director,
TriBeCa, NYC

 **SUPERIOR**
CUSTOM OFFICE REFRESHMENT SERVICES
